STAINLESS STEEL RAW MATERIALS · SINGAPORE

Stainless steel scrap, traded with one counterparty and direct cargo.

Hansa Probity is a Singapore metals trading company specialising in stainless steel scrap. We buy from verified suppliers and sell to steel mills and buyers, acting as principal on both sides of every trade.

FOUR COMMITMENTS

Verified partners only

We trade only with suppliers and buyers whose company details and references we have checked.

One contract each side

Supplier and buyer each sign one contract with us. Purchase and sale are signed back to back.

Independent inspection

Every lot is analysed by XRF before pricing and inspected at loading by an independent company.

Direct shipment

Cargo sails straight from the origin port to the buyer's port. Documents are handled from Singapore.

HOW A TRADE RUNS

01

Enquiry and offer

You send grade, quantity, port and timing. We quote once the material is verified.

02

Matching contracts

Purchase and sale are signed back to back, with confidentiality on both sides.

03

Inspection and loading

Independent inspection, then cargo ships direct, port to port.

04

Documents and settlement

We hold and release the documents. The trade settles against the contract.

GRADES WE TRADE

GRADE	TYPICAL NI	TYPICAL CR	AVAILABILITY
304	8–10.5%	18–20%	Main grade
316	10–14%	16–18%	Main grade
201	3.5–5.5%	16–18%	On request
310	19–22%	24–26%	On request

Nominal composition ranges for each grade. 316 also carries 2–3% molybdenum. Actual chemistry is confirmed by analysis of each lot.

TRADE TERMS

MINIMUM LOT	One 20ft container, about 25 tonnes
DELIVERY	FOB or CIF (Incoterms 2020), port to port
PAYMENT	T/T or L/C at sight, as agreed in the contract
QUALITY	XRF analysis of every lot; independent inspection at loading by a company both sides accept
DOCUMENTS	Commercial invoice, packing list, bill of lading, analysis report, inspection certificate, loading photos with seal numbers
MARKETS	East Asia, Southeast Asia, South Asia & Middle East, Europe and the Americas
